No 119. (6) 12

Office of the Treasury Asst Commissioner
Chittaldrug District
18th September 1895.

To,

The Deputy Commissioner
Chittaldrug District

Sir,

I have the honor to acknowledge the receipt of your memo No 265 B/123 dated the 9th Instant, Calling for opinion on the subject of allowing royots to take Honge leaves from trees situated on unoccupied Government lands, and to state as follows:-

2. Under Section 24 of the Forest Rules now in force in this Province and published under Government of India Notification No 5887 F. dated 8th June 1878, a cultivating royot is permitted for his own bona fide use i.e. for agricultural purposes, but not for sale or transfer, branches of unreserved

Spare copies for temp.

unreserved trees for manure and litter.

3. Prior to the issue of the above Rules, ryots had the privilege of taking leaves off the unreserved full grown trees and cutting all bushes for manure free of tax. Please see para 11 of the memorandum of ryots privileges published under the Chief Commissioner's Notification No.× 5 dated 23rd April 1873. This Concession was allowed by section 18 of the Forest Rules of 1869 published under Government of India Notification No.× 4 dated 19th February 1869 re-published under the Chief Commissioner's Notification No. 607/637 dated 10th March 1869.×

× published at Page 73 of the original Forest Manual

× superseded by Govt Notn No 588/7 8/18/6/78

× copy

4. Although the above Notification No 5 is cancelled partially as far as Shimoga, Kadur and Hassan Districts are

are concerned by the Government Notification No. 9837. / 226-92 dated 9th December 1892, yet the ryots are allowed the same privilege, please see clause 4 of para 5 of the Notification of 9th December 1892. It would therefore be observed that the Notification No. 5 of 23rd April 1873, is still in force in other five Districts of the Province, and the privilege of ryots taking leaves off unreserved wood is virtually in force throughout the Province

5. I believe that under Section 13 of the Forest Rules of 1865, the ryots were allowed to take leaves of unreserved wood for manure and for burning purposes.

6. The late Mr. Krishnaiengar's order issued in the Kolar District is in accordance with the provisions of the Memorandum of 1873, above alluded to, as it would

would protect young trees being indiscriminately interfered with.

7. Under Section XII of the Revenue Survey Guarantee, in all unoccupied assessed or unassessed lands, trees of 9 reserved kinds are the exclusive property of Government, but trees of unreserved kinds may be used by the general public under the provisions of Forest Rules. As the leaves of unreserved trees are allowed by the Forest Rules to ryots for manure, and as Honge tree is an unreserved one, I think that ryots may be allowed to take Honge leaves for manure and letter, of Course for their bonafide use.

8. Under the above circumstances and from experience, I am of opinion that it would be hard to restrict the ryots now

now from taking the leaves of Honge trees situated on Govern-ment unoccupied lands for manure and litter - a privi-lege which they have enjoyed from so long a time in this country, viz from 1865.

9. But considering the growing demand and present circumstances of the country in a Forest point of view, some Conservancy seems to be necessary, which can be done by reserving certain num-bers in such village as may be necessary and allowed to be worked by ryots by rotation, at an interval of 2 or more years which would be to their own interest.

10. Honge fruits of trees on un-occupied waste lands may be sold annually by Government as a minor Forest Produce as hitherto done. But selling or leasing the right to collect

leaves

leaves of Avenue trees should be, in my humble opinion, a harm to the agricultural ryots.

11. As our Avenue trees are planted gratis by the Ryots of their respective villages, I think that they should be allowed to collect dead and fallen leaves and fruits thereof, as the dead trees are also replaced by such ryots under the existing practice in the Country.

I have &c.

(Sd) C. Krishna Row.

No: 25.

Office of the General Asst
Commissioner
Chitaldrug district
Dated 16th September 98.

To

The Deputy Commissioner
Chitaldrug District.

Sir,

In acknowledging the
receipt of your Memo No: 265 (A)
123
of the 9th instant, I have the honor
to state that the rules proposed
by the Survey Superintendent
appear to be well considered and
suitable for adoption. I have
had no experience of the subject
in this district, but from what
I know of it as Amildar in the
Kolar district, some 15 years
back, I may say that the taxing
of palegs hongi poppu required
for purposes of manure would
deprive the ryot of a time honored
privilege

privilege. Fruit bearing bougi trees in specified localities were annually sold for their Amani produce while others which were only useful as yielding leaves for manure were left free to the ryots to be used by them for that bona fide purpose. The rules under Consideration have evidently been Conceived in accordance with established usages which I think should be respected.

I have the honor to be
Sir,
Your most obedient Servant.

Shimoga District

Dated Camp Sacrebyle 12th October 1895.

No. 263.

His Memo dated 4th Ultimo calling for an opinion on the subject of allowing ryots to take Honge leaves from trees situated on unoccupied Government lands referred to in the Government Proceedings No. 1372-9 dated R. J. 285-92

31st July 1895.

In reply has the honor to submit that the Honge trees are generally found on the banks of streams. Its fruit is not much utilized in

the District for extracting oil as in Kolar. The Kerosine and castor oil are used in almost all the villages for lighting purpose and so it does not seem to form an important item of Minor produce in a Malnad District like Shimoga. The amount realized last year from the sale of Honge seeds in the District is Rs 24/4/- The ryots in the District are not very particular about using Honge leaves for manure.

2. If the branches of fruit bearing tree is judiciously pruned it may increase its productiveness and the size of fruits. Some of the branches of Honge bear very few fruits and it is not easy to get the pruning done by ryots with care and judgment.

3. The question takes a different turn in a District where good revenue is realized from this produce and the ryots cannot be made to prune the branches judiciously to the advantage of fruit crop. There seems no necessity for the use of Honge leaves alone for manure when the leaves of other unimportant trees and creepers almost equally good can be used for the same purpose. The undersigned has seen the people of Bheemapatna and Maddur + using the leaves of "Uguni creeper" for manuring their wet lands. If the ryots are made to understand that there are other kinds of leaves which may be used for manure they may forego the concession of obtaining leaves of Honge trees.

the Honge leaves and flowers shed and the terminal branches lopped sometimes by contractors collecting prints may also be used by them.

Sd/ C. Narayana Rao
Deputy Conservator of Forests
Shimoga District.

No. 46.

1st Asstt Commissioner's Office
Shimoga District
Dated 30th October 1895

To
The Deputy Commissioner
Shimoga District

Sir,

With reference to the copy of the Government Proceedings No. 1372-9 A.F. 285-92 of the 31st July last sent to me on the 4th Ultimo on the subjects of Ryots being allowed to take leaves from Honge trees on unoccupied Government

lands, I have the honor to state that lands containing Honge trees in this District are very few. They are generally found on the banks of the river in the Shimoga and Tirthalli Taluks. A very small number of trees are seen in the Chanmagiri Taluk. The revenue realized from the annual public sale of the Honge fruit in the said 3 Taluks during the last two years is as follows:—

	1893-94	1894-95
1 Shimoga Rs	31—12—0	8—12—0
2 Chanmagiri	5—0—	4—8—
3 Tirthalli	—4—0—	11—0—0

2. The contractors export the seed to Bangalore for sale to the oil merchants there. There is no local demand either for the seed or leaves.

28.

The use of this leaf for manure in this District is very rare.

The manure used by the Ryots of this District consist of the leaves of other kinds of trees.

3. I therefore think that the circumstances of this District do not call for any ruling on the subject.

I have &c.

Sir,

With reference to the Government Proceedings No. 1372-9 / A.A. 285-92 dated 31st July last and subsequent reminders No. 3637-43-R. 285-92. dated 12th October 1895 and 4864-8-285-92 dated 25th ditto, requesting my opinion on the rules proposed by the Survey Superintendent on the subject of allowing royots to take Hongé leaves from trees situated on unoccupied Government lands, I have the honor to state that the question does not affect this District as it does the Malar and other Naidan Districts, where Hongé is largely produced and its leaves are used for wet lands as manure &c.

I.

2. 31 I beg to state that the rules proposed by the Survey Superintendent would meet all requirements, and to suggest the addition of one more rule that the ryots going to jungle for there leaves should be permitted only to take the ordinary sickle which they use in their paddy fields as with this instrument the ryot generally is able only to cut leaves and tender branches and not to hack the tree indiscriminately.

3. I am of opinion that fines for infringement of the rules proposed by the Survey Superintendent should be added to the rules, or Specified.

D. No. 5555 Deputy Commissioner's Office

GOVERNMENT OF MYSORE

Bangalore 11th December 1895.

From

The Deputy Commissioner
Bangalore District.

To

The Revenue Secretary
to the Government of Mysore.

Sir,

I have the honor to acknowledge the receipt of Government Proceedings No. 1372-9 / R. F. 285-92 dated 31st July last, inviting views on the rules proposed by the Survey Superintendent on the subject of allowing Ryots to take Honge leaves from trees situated on unoccupied Government lands, and in reply to state, that in my opinion, it is preferable to give out Honge trees on a fixed assessment to such of the wet land cultivators as do not possess Honge trees of their own, on condition that they will

take only "Kudagol Soppu" and flowers as also fruits and that they will use the trees so that they may not decay. By this arrangement, the Ryots will be induced to take an interest in their growth and conservancy.

2. The trees standing on Government unassessed lands and by the margin of streams, rivers &c which do not belong to private parties, will be distributed among the Government wet land cultivators in a village or group of villages in proportion to the area cultivated by each of them and the amount of tax will be added to his Khata. These trees will not be included in the Amroji sale. If any ryot should give up his wet land, his right to the Honge trees allotted for its cultivation, will cease and pass on to the person who takes up the land.

3. In this Office No. 726 dated

18th December last, the late Mr. Blu=
=jaet Ali has expressed a fear that
the counting of the trees "does present
an insurmountable difficulty" but,
I am of opinion that considering
that trees only on unassessed waste
lands including gomal, river sides
&c will be given, the difficulty
of enumeration may be overcome
with the help of the village officials at
the time of Pahani, and the accuracy of
the counting may be secured by the Amildar
and Huzur Jamabandy officers check=
=ing it at the time of Jamabandy.

4. As regards the rate of assess=
=ment to be fixed, I would take into
Consideration the average amroji
produce for the last 10 years, and the
local demand for the leaves and fix
the rate, so that it may not be less
than the amroji revenue.-

5. The unassessed lands
containing Honge trees allotted to

Ryots will be reserved and will not be granted for cultivation except on Special grounds. In fact, they will be treated as gomal lands are. —

I have the honor to be,
Sir,
Your most obedient Servant,

41

Deputy Commissioner's Office,
Hassan District.
Dated, Camp Hanbal, 11th April 96.

From

A. Krishnaswamiengar Esqre.,
Deputy Commissioner,
Hassan District.

To,

The Secretary to the
Government of Mysore,
General and Revenue Departs.
Bangalore.

Sir,

With reference to Govern-
-ment Proceedings No. 1372-9 Dated
D. F. 285-92
31st July 1895, calling for opinion on
the question of disposal of Govt's
leases required by Raiyats for
manure, I have the honor to state
that I am totally opposed to any
measure under which this manure
is to be taxed or sold. It is the life
and soul of wet cultivation. It
is almost the very bread of life and it
is the greatest hardship that it —
should

should be turned into a source of revenue to Government. The Survey Superintendent's remarks on this subject appreciate and realise the full measure of the inconvenience which would be occasioned to the Raiyat.

2 —— With regard to the particular method of regulating the cutting of Hanj leaves, proposed in the Survey Superintendent's rules, I beg to disagree with him, with due deference to so high an authority. It is said that the numbers of lands on which Hanj leaves might not be cut should be determined with reference to distance from wet lands, vide para 7 of the letter. It is somewhat difficult to reconcile this with the remark

remark made in para 2, "No
"Raiyat will go for bona fide pur-
"pose of obtaining Govt's leave
"for nidamure further than he can
"help". I think the best test of real
need will be that he goes to the
land for cutting leaves. If he
needs leaves, he must be allowed
to take it wherever it grows ex-
-cept of course in Reserved Forests
and Plantations, Topes and Road
-side trees. If the need is not
real, no Raiyat would waste
his labor and time in going to a
distant land for cutting leaves.
The thing will adjust itself. I
would, therefore, place no other
restrictions as regards lands
on which leaves may be cut.

3 —— Some restraint should be
imposed for preventing destruc-
-tion

destruction of trees by indiscrim-
-nate ~~felling~~ lopping. This is best done
by limiting, under the authority
of, and penalty provided in, the
Forest Rules, the cutting, to branches not
more than an inch
in thickness or so. The real source
of mischief is the liberty to cut
thick branches and to use the
wood for fuel. If this is stopped,
sufficient provision will have been
made for conserving Honge trees
which, it is well known, freely
sprout after judicious pruning
and for securing Government
revenue from the lease of Honge
seed. Any further limitation
is not only unnecessary but would
also materially interfere with the
well being of agriculture which is
Contemplated

Contemplated in Rule 24. Clause
3 of the Forest Rules of 1878 and
in Raiyats Privileges Rules (Notifica
tion No. 6084 Dated 8th January 1896)
7L.7. 105-95
bara 5. Clause 4. —

4 —— Another matter connected
with this subject which requires
to be regulated is the distribution
of leaves such as may prevent
the more influential Raiyats
from appropriating to themselves
all and more than they need
and starving the weaker fry.
This is where Government inter-
ference is often really needed. Where
there is no dispute, the village
headman and the community
may be safely left to regulate
the matter among themselves.
But where a contention does
arise

arise as is certain to be the case if hardship exists, Revenue officers may interfere to distribute the leaves by head loads or cart loads according to areas of wet land cultivated by each individual and the estimated available supply in the village. —

I have the honor to be,
Sir,
Your most obedient servant;

Deputy Commissioner
Hassan District

50

Kolar Deputy Commissioner's
Office
Dated the 16th July 1896.

To

The Secretary to the Government of Mysore
Revenue and General Department

Sir,

Adverting to your circular memo No. 1372-9
R.7285-92
dated 31st July 1895 inviting my views regarding the rules proposed by the Survey Superintendent in the matter of allowing ryots to take Honge leaves from trees situated on Government unoccupied lands, I have the honor to state that the rules in question presuppose the existence of "Loppin lands" which I consider is not the case.

2. During the Survey Settlement, most of such lands have been assessed and given out for cultivation and what has not been taken up is either assessed or not but the ryots have been prohibited from exercising any right of collecting leaves from trees standing on such lands as they are included in the annual Amarayi Sales.

3. The grant of the trees for leaf manure will interfere with the revenue derivable by Government from the fruit while sale of the latter will deprive the ryots of the use of the leaves

as it is unlikely that the Amarayi Contractor would allow the trees to be lopped when he has the right to collect the fruit unless he sells it to the ryots at a high price on account of their need for leaves, so that he makes a profit in the transaction to the disadvantage of the wet land holders.

4. Rule 2 proposed by the Survey Superintendent can only be worked as far as trees in the village Podis, Gomal lands and unassessed waste are concerned provided the Government is prepared to forego the revenue derived from the Amarayi sale which includes the fruits of Honge and other trees, such as, tamarind, jack, mango, &c &c in which case an exception will have to be made as regards the fruits other than Honge.

5. Section 24 of the Forest Rules concedes to the ryot the privilege of cutting and collecting in District Forests branches of unreserved trees for manure and litter. Thus there could be no objection to the ryot taking free of charge the leaves of Honge trees but there arises a difficulty as to whether Gomal land or village Pode does fall under the Category of District Forests as defined in section 1, Para 2 of the above said Rules. This point requires the decision of Government.

6. Granting that the Government appro

of setting apart the above lands for Pasturial purposes, the question is how the demand of the ryots of villages devoid of Honge trees and of individuals in the same village is to be met. I must admit, it is not an easy problem to satisfy the parties concerned. All that could be expected is to allow the Taluk officials to enquire into each case and dispose of it on its merits by setting apart trees in the adjoining tracts or by rateably distributing them according to the area of wet land held by each ryot, as it is difficult to lay down any definite rules on the subject.—

I have the honor to be
Sir,
Your most obedient servant

Deputy Commissioner
Kolar District.

Government Proceedings No. 7517-24 / Rev. 79-96 dated 21st April 1899 regarding the disposal of the lease of Honge trees situated on Government unoccupied lands, for purposes of manure.

Has the honor to state that, owing to the small amount of revenue realized in this district and the hardship that would be caused to ryots by the sale of monopoly of collecting Honge leaves for manure, the license system sanctioned in Government Proceedings No. 1380 / Rev. 285-92 dated 31st July 1895 may be permitted to be continued in this district, which varies materially from Kolar in

this as in several
other respects.

No 5546
R.7.79-96

The Dy Comm's Docket No. 493/492 & 10th January 1900, stating that owing to the small amount of revenue realized from Honge leaves in the District & the hardship that would be caused to Ryots by the Sale of monopoly of Collecting Honge leaves for manure under Govt order No. 7517-24 R.7.79.96 & 21.4.99, the license System Sanctioned in Govt Dtch: No. 1380 R.7285.92 & 31st July 1895 may be permitted to be continued in the District which varies materially from the Kolar District.

Referring to the above, has the honor to observe

that the report is not very clear, and to request therefore that information be furnished on the following points: — 58

(1) What is the revenue realized in the District from Hongé leaves?

(2) What is the exact nature of the hardship referred to by the Dy Commr.?

(3) Is the Kolar rate dearer than that proposed to be continued in Chitaldroog, and if so, how?

To

The Secretary to Government
of Mysore, General
and Revenue Departments
Bangalore —

Sir,

With reference to your docket no 5546 R.F. 79-96 dated 2nd ult. R.F. 179-96. I have the honor to return & append in the margin the realizations from the sale of Honge leaves in the several Taluks of the District during last year (1898-99).

Chitaldrug 7-8-
Chellekere 106-13-
Molkalmuru 106-
Holalkere 18-
Jagalur 3½-
Total 241-5-

2 The kolar rate is Rs 1-12- for 100 trees. It is difficult to check the collection of leaves when permits

permits are given for collection of leaves from a stated number of trees. The check is easier in the case of cart-loads and more effective. I have no data upon which to say whether the Kolar rate is dearer than what has been allowed for this District. But looking to the small amount of Revenue realizations under this head and seeing also that the system of licensing cart-loads has been hitherto working satisfactorily, I urge that the present system may be allowed to continue.

I have the honor to be
Sir
Your most obedient Servant
[illegible]
Deputy Commissioner

Read again:- Government Progr.
No 705 F-96 dated 21st Feb
1899 directing the
Continuance of the
practice, obtaining in
the Forest Dept. regards
issuing out the House
Trees Preserving on Govt.
Waste Reserved Land
at Rs 1-12-0 per load
and extending the said
practice by the other
Districts.

Section Agri
File No 1-87
Serial No 52

Read:- Correspondence
ending with Collectors
680/647 dated 28th March
1900, from the Revenue
Khitalong, District
proposing that the
System of granting Trees
by levying a duty of
1 Re. on every Cart. load
of House leaves

collected in Govt un-
-occupied lands, may
be continued in his Dt.,
on the ground that the
check is easier and more
effective; there could
be exercised if the system
obtaining in the Kolar
Dt. is brought into force.

Order thereon

The Deputy Commissioner
is requested to try the
Kolar system of levying
a Seigniorage of Rs 1½
for one hundred trees
for one year and report
the result for Govt.

It is pointed out to the
Deputy that the
description of the Kolar
system as "the sale of
monopoly & Collecting
Conge leaves" given in
his letter No 493 dated
10th January 1903 is
incorrect, the real
description being "the
allotment of Conge
trees

Dated Chitaldrug 7th August 1902

From

M. Narain Rao Esquire
Deputy Commissioner
Chitaldrug District

To

A. V. Narjundayya Esquire M. A, M. L.
Secretary to the Government
of Mysore, Genral and
Revenue Departments,
Bangalore.

Sir,

With reference to Government Proceedings No: 3119 / R.T. 79-96 dated 12th October 1900 directing that the practice obtaining in the Kolar District as regards leasing out the Honge trees standing on Government unoccupied landsat Rs 1-12-a per 100 trees, should be tried in this District for one year and a report made on the result thereof at the end of that period, I have the honor to state that the system was tried during the year 1900-1901 and a sum of Rs 95-10-a was realized in the Taluks of Molacalmuru, Jagalur, Holalkere and Chellakere. There have been no Complaints of any kind from the ryots in the matter. I beg

therefore

Therefore to ~~solicit~~ that the Sanction of Government may be accorded to the System being continued in this District permanently.

I have the honor to be,
Sir.
Your most obedient Servant.
